

DRAFT – DO NOT ENTER

REMARKS

Support for the proposed amendment (e.g., applying “clinically repeatable dosages” of light) is found on page 8, line 31 to page 9, line 7:

FIGS. 3A and 3B are a schematic bottom view and side view, respectively, of an exemplary embodiment of the light therapy device 100 of FIG. 1 (referred to by reference numeral 100' in FIGS. 3A-B). As will be described further below, the light therapy device 100' of FIGS. 3A-B may provide clinically repeatable dosages of near infrared (NIR), ultra-violet (UV) and other light frequencies to stimulate new growth in chronic wounds, to kill pathogenic organisms, to activate photo sensitive chemicals in the treatment of skin and other cancers, etc.

Applicants thank the Examiner for the helpful suggestions provided during the informal teleconference held July 18, 2005. Applicants have amended the pending claims as discussed. By this informal submission, Applicants respectfully request that the Examiner confirm that the amendments contained herein overcome the outstanding rejections.

Respectfully Submitted,

**FOR DISCUSSION ONLY
